

Memorandum of Understanding

between

New Taipei City Computer Association (NTCA) & Federation of IT Associations of India (FITAI)

This Memorandum of Understanding (MOU) is executed by and between the New Taipei City Computer Association and the Federation of IT Associations of India. The purpose of this MOU is to promote mutual cooperation, exchange of experiences, and share of information between Taiwan and India. NTCA and FITAI agree to cooperate in the following areas:

- To exchange information on the market & industrial trends in machinery, mechanical and automatic sectors in the respective region.
- To promote conferences of the association in both regions for the technological cooperation and trade partnership between members. Moreover, parties in this association help negotiations, seminars and meeting affairs.
- To encourage and facilitate industrial missions to each other's region.
- To encourage knowledge-based industries in both regions through joint ventures or technology cooperation.
- To assist one on one business meetings and trade fair participation.
- To refer to this partnership on their respective websites.
- To reach mutual benefits by cooperation in holding seminars, conferences and training; also stay open for future plan.

This MOU is entered in good faith with no legal or financial implications between the above named parties.
